## Foreword

Sustainable entrepreneurship in the urban environment of the South Muntenia Region

Project co-financed from the European Social Fund through the Human Capital Operational Program  
2014-2020 POCU / 82 / 3.7 / 104 001

The Romanian company coordinating the above mentioned project, IPA SA Romania, promotes new SMEs companies established within the above mentioned project, in order to initiate business partnerships and collaborations with International companies, with the support of various EEN-Enterprise Europe Network experts.

We want you to help us set up new start-up companies, briefly presented in this catalog, to try to establish business partnerships and collaborations with similar companies in your area of activity.

In this sense, please disseminate this catalog to as many SME associations, business associations, partnerships, in your country and your area of activity.

The catalog presents the Profiles of the respective SMEs, with the afferent coordinates, so that your EEN clients can contact the Romanian companies they are interested in.

Hoping for fruitful cooperation,

Florian UDRESCU

Project expert, IPA SA General director

7. Company description, profile, activities:

*MV Etape s.r.l. is a future-oriented Romanian company. We are concerned with implementing the technical solutions we have been working on for years. The company's services include innovative ideas, technical design, for the modernization of table tennis clubs, offering very good conditions for customers and a safe investment for shareholders, with control of revenues and security of the field and facilities, at minimum costs. Everything is based on total automation of access, payments, air conditioning, lighting and gaming tables. This club operates without employees 24 hours a day. After the appearance of the new coronavirus, we took measures for customer safety, implementing an automatic system for measuring body temperature and hand hygiene at the entrance to the building, this being a main condition of access.*

*Also in this sense, we work on the automatic sanitization of the surface of the tennis tables, at the beginning of the game as well as the sanitization of the air and the building with UVC and UVA radiation, without affecting the health of the clients.*

8. Cooperation areas / Partner search

*-We are looking for strong partners, eager to promote and develop this new concept of autonomous table tennis club.*

*-We address companies in the field of sports that want to modernize existing table tennis clubs, or that want to develop in other locations.*

9. Products / services description

*Being a shareholder in a company that also had a table tennis hall, I saw the problems faced by an investor in this field.*

*These are:*

- the correctness of the employees;*
- lack of labor;*
- clients with educational deficiencies;*

- young people who are no longer attracted to playing sports;
- the seasonal aspect of the business;
- market competitiveness;
- the impossibility of developing the business.

We solved these problems through the concept of autonomous table tennis club, where customers enter on the basis of a membership card, can book a table at any time of day or night paying, at an affordable price through a collection system vpos.

They have all the conditions of play, comfort and security.

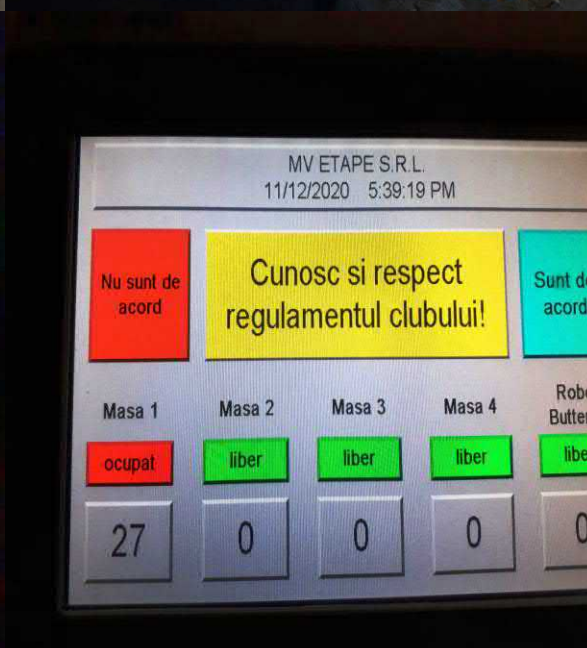

Instead, they will have to follow all the rules of the club, otherwise they will be penalized or denied access.

The tables and play space are automated and have implemented these ideas.

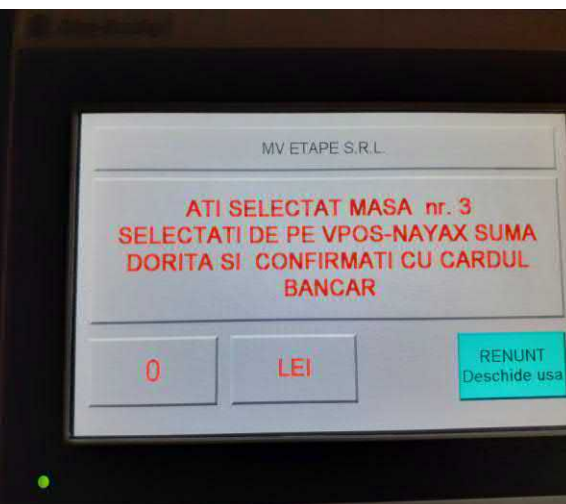

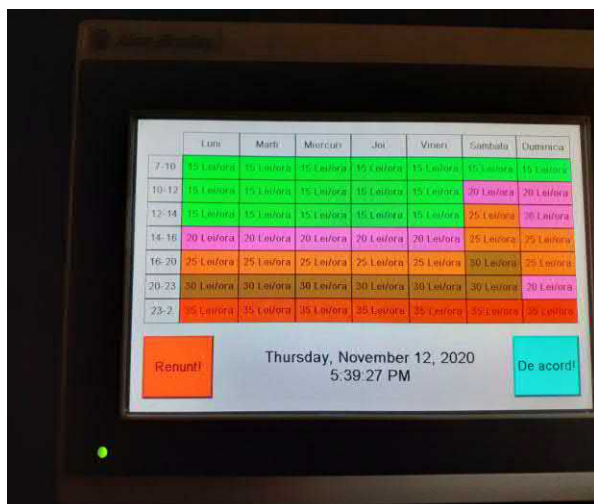

They provide online information about events, bank receipts, statistics and you can manage your business remotely.

### 7. Company description, profile, activities:

Our photography studio is completely equipped for immortalization of the best moments of your life. You could join us for a photo shooting in our studio or in a natural framework. A photo session it is the best way for flying away from all of your problems. We offer you a short brake because a photo session with your family it is the best gift you can give to yourself.

### 8. Cooperation areas / Partner search

We wish to collaborate with another photographers because our country it is beautiful and it deserves to be discovered.

### 9. Products / services description

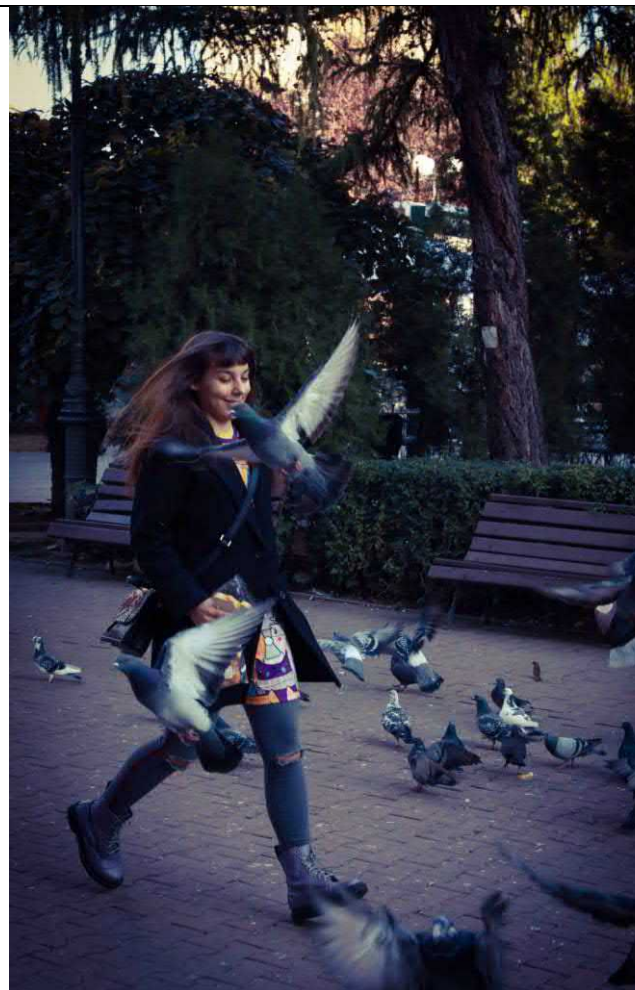

The photo shoot for children is the perfect opportunity to keep the memory of their innocence.

This meeting will give the opportunity to restore the sincerity and purity of your little one. During the photo shoot, the little one will be free to express himself and play as he wants, our mission being to capture these natural and spontaneous frames.

The duration of a session is an hour and a half, during which time we will change two - three favorite outfits for the little one and for you. The package offered includes 12 photos edited, in digital format, at high quality resolution. We can also add printed photos for a fee.

5. Phone / Mobile: +40 741 04 96 94
6. Company web site: www.mariestephanie.com
7. Company description, profile, activities:

SC MARIESTEPHANIE SRL has set up a brand of chic clothes for pregnant women, aiming to meet the needs of expectant mothers who wish to display stylish outfits during pregnancy, both at the office and/or special events or simply during their free time.

MarieStephanie is the first premium maternity fashion brand created and manufactured in Romania, intended for expectant and new moms that are active and full of energy, and wish to transpose the same exuberance in their clothing style.

The original designs and the creative parts of our collections are provided in-house (original designs), while afterwards our clothes are produced locally, by boutique suppliers specialized in the lohn production of textiles.

The main success driver of our business relies on proper marketing of our products, in order to be able to create a strong brand, positioned on the premium segment.

## 8. Cooperation areas / Partner search

Fashion distributors / Fashion retailers / On-line fashion retailers

## 9. Products / services description

Through an online store (www.mariestephanie.com), MarieStephanie produces and sells outfits for pregnant and new mothers. Main item categories include dresses and overalls, pants, skirts, blouses - all based on special designs, tailored for the needs of pregnant and breastfeeding ladies. They are grouped according to the desired clothing style as follows: "office", "cocktail", "casual".

### Overview

Husky sled ride through Harghita Mountains is a unique experience that you can enjoy in magical Romania. This sport is more specific to Alaska or the Nordic countries, but the dream landscapes and the prolonged winters in Harghita create favorable conditions in our country.

The routes are traveled through secular forests, carved by wild animals, being well known that in the mountains of Romania live approx. 50% of Europe's large carnivores, except Russia.

**6. Company web site:** <https://dress4dia.ro/>

**7. Company description, profile, activities:**

The love from fashion, passion for beautiful and because there is a challenge to be a woman nowadays, all 3 are the reasons that induced me create the brand DRESS4DIA.

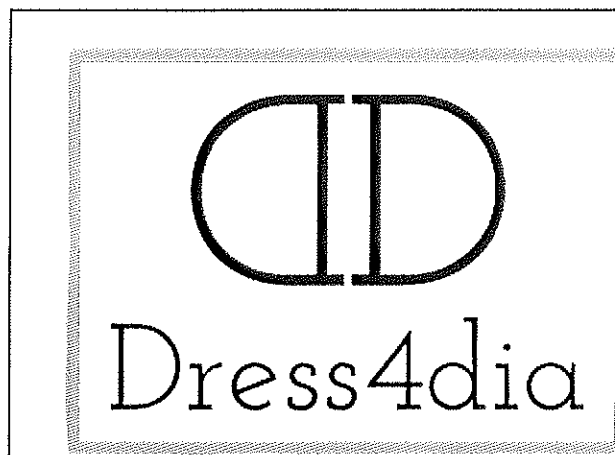

We create tailor made/custom made, working with the silhouette of every woman and our goal is to create BEAUTY. The textile we are using are high quality: silk, Chantilly lace, handmade accessories.

Once I gave birth to my daughter Diana, the clothing creation long waited came along. So, in our life, we have now two miracles: Diana and Dress4Dia. The love for children and for fashion together and a business plan well structured helped us obtain an european financing for fulfilling our most wanted dream. The financing gave us the possibility to acquire the most performant machines and the most qualitative silks and laces to tail little dresses for little princesses.

**8. Cooperation areas / Partner search**

The search for partners was very elaborated, because I tried to find it all nearby.

The referrals are very important and most of the clients and partners came on this way.

## 9. Products / services description

We have a large area of products: Red Carpet dresses, evening dresses, cocktail dresses. We will launch the Mother-Daughter collection for mothers who have daughters with the age starting from 1 to 12 years old for which we create dresses or identical clothing.

- mini series clothes (office dresses, blouses, skirts, mother-daughter clothing)
- order production of evening dresses, Red Carpet dresses

A few products that we produce can be find on our website: [dress4dia.ro](http://dress4dia.ro), please find below a few examples.

7. Company description, profile, activities:

Obiectivul principal al acestei noi societati este acela de a oferi clientilor/pacientilor servicii de calitate in domeniul ingrijirilor la domiciliu, in special pacientilor neurologici care au suferit accidente vasculare, traumatisme craniene, hernii de disc si care sunt vremelnic imobilizati la pat.

Strategia noastra este de a crea un serviciu nou pe piata din Calarasi, avand garantia faptului ca in momentul de fata nicio alta firma de ingrijiri la domiciliu nu ofera pacientilor terapii combinate de laserterapie, electroterapie, ultrasonoterapie, magnetoterapie si kinetoterapie, ca si terapia inovativa a escarelor de decubit.

### 8. Cooperation areas / Partner search

- Medicina de Familie;
- Neurologie;
- Reumatologie.

### 9. Products / services description

**Serviciile oferite de societatea noastra sunt :**

1. Servicii de fizioterapie cu ajutorul aparaturii achizitionate:

COMBINA DE FIZIOTERAPIE care inglobeaza intr-un singur aparat 4 terapii:

-Laser-terapia pe care ne propunem sa o achizitionam foloseste energia luminoasa absorbita de tesuturile pacientului. Local aceasta energie declansaza modificari biologice la nivel celular care duc la intensificarea circulatiei sangvine locale inlaturand temporar durerea si rigiditatea din muschi si din articulatii. Doza si frecventa tratamentului cu laser poate fi reglata in

functie de efectul scontat. De asemenea, lumina laser in spectrul jos accelereaza regenerarea nervilor, a cresterii osoase ca si vindecarea ranilor.

- Ultrasunetele sunt vibratii mecanice cu frecvente mari folosite in reabilitare de la mijlocul secolului trecut; metoda de aplicare a ultrasunetelor se face cu ajutorul unui dispozitiv care se plaseaza direct pe piele folosindu-se de un gel cu proprietati conductoare. Terapia cu ultrasunete ajuta la relaxarea tisulara, are rol important in imbunatatirea fluxului sangvin precum si in vindecarea cicatricelor. Ultrasunetele pot si folosite de asemenea, pentru a obtine efectul de fonoforeza; aceasta reprezinta o metoda non-invaziva de administrare a medicamentelor in tesutul subcutanat.

- Electroterapia este o forma de terapie care utilizeaza stimularea electrica pentru a ajuta organismul sa se vindece mai rapid. Electroterapia foloseste mai multe tipuri de curent electric: curenti interferentiali, curenti TENS, curenti diadinamici.

-Magnetoterapie

## **2. Servicii de monitorizare a parametrilor fiziologici a pacientului**

**HOLTER EKG – TA**

**PULSOXIMETRU**
